

Vocabulary Directions

In your groups, you will be assigned **three** different words from the vocabulary list. For each word you will complete the following:

1. On your graphic organizer write down the word you are researching
2. Look up the definition. Write the definition in the space provided, but **in your own words**
3. Write a sentence using the vocabulary word. In the sentence you must show you understand its meaning
4. Generate three different synonyms for the vocabulary word.
5. Finally, create a PictoWord
 - a. A PictoWord is an image that illustrates the meaning of the word, but also uses the word within the image.
 - b. Example: If your vocabulary word is “cat”, the PictoWord can be the letters from cat drawn as the animal.
 - c. You must use the letters of the word in the picture.
 - d. You must draw an image which shows some part of the meaning behind the word.
6. You will complete these steps for each of the three words your group is assigned.
7. Your group will then take one word (which has already been selected) and create a poster of a larger version of its PictoWord, which will be hung in the classroom.
8. At the end of class your group will present and share the words you researched.

Vocabulary Words:

1. Cerebral
2. Susceptible
3. Impediment
4. Perseverance
5. Brawl
6. Persistent
7. Decrepit
8. Interrogate
9. Burden
10. Vow
